Current Responsibility

Ryan Andersen is currently the senior vice president of Client Services in the Seattle office of Milliman. He joined the firm in 2000. He works directly with clients and client success teams to ensure satisfaction and success with MedInsight products and services.

Professional Work Experience

Prior to joining Milliman, Ryan served as an applications and database consultant working with various companies. As a consultant, Ryan was involved in planning, developing, and creating e-commerce sites, and data warehouses, and distributing applications.

Ryan brings a wide variety of expertise to Milliman including Microsoft Windows networking design and implementation, application design and development, and the design, programming and administration of SQL and Oracle database platforms. He also has extensive experience with Milliman's MedInsight products.
