+1 781 213 6280

Current Responsibility

Craig Brophy is a principal and consulting actuary with the Boston office of Milliman. He joined the firm in 2005.

Professional Work Experience

Craig collaborates with clients that include multiline property and casualty insurers, captive companies, corporate self-insurers, risk-retention groups, reinsurance pools, and state insurance departments. He has helped his clients with loss reserving and funding analysis, captive feasibility studies, commercial ratemaking, and data analysis for management reporting.

His experience includes both commercial and personal lines, including niche coverages such as United States Longshore and Harbor Workers Compensation and Federal Employers Liability Act. He has also worked on assignments in emerging areas such as cryptocurrency and professional liability related to medical marijuana exposure.
