

# Milliman | MyRxConsultant

MyRxConsultant empowers employers, payers, and healthcare brokers to make faster decisions to reduce pharmacy spend with detailed near real-time reports

## Improve decisions, reduce costs

Our experience-based reports offer clear, concise insights enabling users to:

- Review PBM invoices with confidence
- Track highest cost prescriptions, patients, and pharmacies
- Gain a competitive edge in contracting efforts
- Confirm performance is aligned with contract
- Ensure your pharmacy program is cost effective
- Steer utilizers to more cost-effective drug options
- Conduct a PBM pricing audit

## Instant, easy access

Easy-to-use, near real-time reporting tool that allows you access to performance insights anytime, anywhere. Users upload raw pharmacy claims data to our site, which is processed quickly, securely, and electronically. Within minutes, users receive sorted, summarized data reports in a secure format.
